

CAPITAL PROJECT CONSTRUCTION ACTIVITY

Week Ending July 17, 2021

YOUTH HOUSE: Construction of the Gaga Pit is underway.

STONE HALL: Demolition of the ceiling tile on the perimeter of Stone Hall has begun in preparation for installation of acoustic tile with greater sound insulation. Rough-in of electrical is complete for future installation of AV screens in Stone Hall.

SANCTUARY LEVEL:

CENTRAL STAIRS: Installation of windows is complete in the former Court of Flags; these windows replace doors which are now inaccessible with the new Central Stairs. Fire damper installation is complete.

SACRISTRY / KITCHENETTE / USHER CLOSET: On the Sanctuary level, renovation continues on the Sacristy / Kitchenette next to the Parlor with shelving, doors and installation of appliances. Final punch list items are being handled to finish the new Usher Closet outside the Sanctuary.

NEW ELEVATORS AREA: Installation of windows in the alcoves on both sides of the new elevators is underway.

OLD ELEVATOR AREA: In the area where the old elevator once was, framing of the walls and ceilings is underway.

NEW GARDEN ROOMS: Final punch list items were documented during preliminary walkthrough in preparation for acceptance of new Garden Rooms.

UPPER PLAZA AND FOUNTAIN GARDEN: Outside the Sanctuary Level, the installation of the glass guard rails above the new garden rooms is complete. The walkways in the front garden around the fountain have been poured.

MISCELLANEOUS:

- Furniture for the new Welcome Center and new video screens for Stone Hall have been ordered.
- Work continues to wire interior spaces to accommodate the new up-to-date fire alarm system in the entire building and programming has begun.
- The process continues to connect old and new HVAC equipment to the new controller for the new Building Automation System (BAS) which enables staff to adjust outside air, temperature and humidity in the building and trouble shoot problems as they arise.
- Low voltage cable is being laid for our upgraded IT system throughout the building. The new AV and IT closet on the first floor is finished. The new fiber loop has been tested and connectivity confirmed for both the church and school.
