COERCIVE POWER

CORRUPTED POWER

NIETZSCHE

My idea is that every specific body strives to become master over all space and to extend its force (its will to power) and to thrust back all that resists its extension. But it continually encounters similar efforts on the part of other bodies and ends by coming to an arrangement ("union") with those of them that are sufficiently related to it: thus they then conspire together for power. And the process goes on.

And the process goes on.

My idea is that all true being strives to create room for more being and to expend its power in the creation of flourishing environments for variety and life, and to thrust back the chaos that limits true being. In doing so it creates other bodies and invites them into mutual creation and tending of the world building relationships where there had been none: thus they then cooperate together in creating more power for more creation. And the process goes on.
